## KUROPATKIN RECALLED; LINEVITCH SUCCEEDS HIM

(Continued from First Page.)

army of 350,000 men to Harbin is a desperate one. He is hemmed in on all sides. General Kamamura presumably is pressing northward, through the mountains eastward ready to swoop down. Generals Nogi and Oku are on the west of the Russian forces, the whole line of the railroad is threatened, if not already cut, and Chinese bandits are even reported to be in the rear of Harbin. A consummation of the Mukden disaster is feared. Napoleon's plight in retreat from Moscow with Kutusoff's Cossacks, harassing the starving, freezing Frenchmen was hardly as bad or dangerous.

### The New Commander.

Lieutenant Linevitch, the new commander of the Russian land and sea forces in the Far East is in his 66th year of age. He was fighting in the Russo-Turkish war of 1877-78 and has since then taken part in all of Russia's Asiatic campaigns. Linevitch was also prominent in the relief of the legations at Peking.

He is greatly beloved by the soldiers because of his constant solicitude for their welfare. At the battle of Mukden General Linevitch was reported March 5 as stubbornly holding his position and as having repulsed 18 consecutive attacks of the Japanese, but in spite of this he is said to have escaped with slight losses and March 18 he entered the Russian lines south of Tie Pass with his regiments in perfect order. The following day the Russian troops, apparently those commanded by General Linevitch, repulsed a Japanese attack at the Fan river, the Japanese leaving a thousand men killed before the Russian position.

If Rojstvensky is successful, it is claimed that an entirely new complexion will be placed on the situation.

### Thankful For Defeat.

In the meantime the completely disheartened ranks of those who are crying for peace are growing, the strange convert being Prince Meshchersky, who, as shown by his article in the

Grashdanin this morning, has become suddenly a zealous advocate of reform, declaring that to make an end of the war would not require more heroism than to conclude peace after victory. He thanks God for sending defeat instead of victory, which, he says, would only cover with laurels the gaping wounds and miseries of the poverty-stricken people and the badly fed and clothed, but heroic soldiers, justified robbers of a peaceful country.

The "glorified though faithless servants of the emperor" are exhorted to penitence after the present trials and are urged to "rebirth to honor and duty."

### ANOTHER ARMY TO BE FED TO THE JAPANESE.

Nothing further has arrived from the front, but it is feared that the decimated battalions which had hardly recovered from the demoralization of the Mukden retreat have again been thrown into confusion by Field Marshal Oyama's relentless, merciless pursuit. The war office greatly fears that more of the siege and field guns which Kuropatkin managed to save at Mukden have been sacrificed in the hurried flight from Tie Pass. The question of ammunition and food is also vital, as it is known that the Russians were compelled to burn further stores at Tie Pass, where the commissariat was only beginning to feed the half-famished troops when the new retreat was ordered. But even in the face of the possibility of the complete loss the emperor still shows no signs of yielding. Preparations for continuing the war on a larger scale than ever are proceeding. The dictum has come forth that another army of 450,000 men is to be dispatched to the Far East, and in order to avoid delay it has been decided instead of sending only reserve men to form new armies largely of regulars leaving the reserves to replace the regulars in garrison duty at home. Throughout the war many military men have contended that it was a fatal mistake to send reserve men to the Far East. A division of the Imperial Guard will be sent to the front. It is not improbable that some of this year's conscripts will be sent. Separate armies are to be organized under Generals Gordeff, Grippenberg and Kamoroff. Even in the most optimistic quarters, however, it is realized that a general mobilization is likely to be accompanied by widespread disorders unless the composition and functions of the popular representation under the Imperial rescript are more satisfactory than now appear probable. Practically no progress is being made by the Bouliou commission. The emperor has been so much occupied with the war situation that he has twice postponed action on Governor General Bouliou's recommendations, and the latter is represented to be so dissatisfied that he desires to resign and turn over his work to his assistant, M. Vatski.

The war council, it is also understood, has definitely decided that Vice Admiral Rojstvensky shall continue his voyage and give battle to the Japanese in the forlorn hope of wresting control of the sea from Admiral Togo.

### Japanese Advances.

Washington, March 17.—The Japanese legation has received the following from the foreign office at Tokio: "The railway station and other facilities for communication at Tieling (Tie Pass) are still in existence, nearly as much as at Liao Yang after its fall. Of the large number of Russian provisions and fodder stored near by, two-thirds have been burned by the enemy. The trophies are considerable, but have not yet been counted. The prisoners taken in the direction of our right are numerous, but the exact number is not yet reported."

### Japanese Pushing Advantage.

St. Petersburg, March 17.—There is dread anxiety here regarding the fate of the army in Manchuria under the new commander, no news of military development having been received here in the last two days. The only dispatches from the front brought an announcement that General Linevitch had assumed command and that Kuropatkin was departing for St. Petersburg.

A correspondent of the Associated Press from Changtupa yesterday wired there would be no pause in the Japanese advance probably for some time. Russians were losing heavily in rear guard actions and the Japanese columns were reported pressing northward as fast as possible to complete the environment of the Russians.

Linevitch's Army.  
Military officials here declare that General Linevitch has 268,000 men at his disposal in Manchuria and it is believed that this force is sufficient cause for the Japanese to exercise greater caution in pursuit.

### Japanese at Mukden.

By The Associated Press.  
General Oku's Headquarters, March 15.—(5 a. m.)—Field Marshal Oyama and staff entered Mukden this afternoon. They were met at the south gate by many troops encamping near Mukden, who lined the streets displaying their tattered battleflags.

The Chinese officials welcomed Field Marshal Oyama and many thousands of Chinese congregated in the streets to witness his entry. The buildings and streets were decorated and thousands of Japanese flags were exhibited.

### Spoils for the Japs.

Tokio, March 17.—(9 a. m.)—A telegram received to-day from army headquarters in the field says:

The railway station at Tieling is a splendid structure and its arrangement equal those of the station at Liao Yang. The enemy's provisions and fodder, piled around this station, were set on fire and two-thirds of the material was destroyed.

"We have captured numerous spoils but have had no time to investigate them."

"A great number of prisoners have been taken in the direction of the right wing, but the details of their capture have not yet been received."

### From a Harmless Source.

New York, March 17.—The mystery of the letters addressed to the emperor by revolutionists which were constantly found in the palace of Tsarskoe-Selo has been solved, according to the Herald. The solution came about through the discovery of a page named Verkhovski, who was examined a few days ago on complaints of his fellow pages and declared to be mentally disordered.

### Failed to Make Maps.

M. Kirilloff, the famous war correspondent, in continuing his disclosures upon the defeat of the Russian army, attributes it partially to the failure of the General staff to map properly the region between Liao Yang and Mukden.

Russia lost forty-five thousand men south of Mukden last October, when the troops were ordered to make a turning movement against a naturally impregnable position. He concludes the chief cause of the reverses of war to have been the complete inactivity of the general staff.

### COMMISSION TO INVESTIGATE PORT ARTHUR AND STOESEL.

St. Petersburg, March 17.—A commission has been appointed to investigate the surrender of Port Arthur and act as a court to determine the responsibility of General Stoessel.

### WOOLEN MILL OPERATIVES INCITING STRIKES.

Warsaw, March 17.—A dispatch from Lodz says that owing to rumors of approaching mobilization, workers in the woolen mills have struck. Reports of peasant agitation are coming in from nearly every part of the country. In the province of Eszkov bands numbering from one to six hundred are marching from village to village inciting the laborers to join the movement.

The supreme court of the United States has emphatically upheld the constitutionality of the law under which peonage cases were tried in Georgia and Florida. It is the same law under which cases were tried in the United States Court in Alabama. There has been but little of this kind of lawlessness, and it is to be hoped that the efforts that have been made to punish the offenders will forever end the evil practice.—Montgomery Advertiser.

## BATTLE WITH SAFE BLOWERS

TWENTY SHOTS EXCHANGED AND  
ROBBERS BELIEVED TO  
BE WOUNDED.

By Associated Press.  
Chicago, March 17.—Six masked robbers frustrated in an attempt to dynamite the safe in the office of the Birk Brewery to-day, after they had overpowered and gagged two employees of the place, made their escape, but not until they had engaged in a fight with the police.

More than twenty shots were fired by the officers and it is thought two of the escaping men were wounded. The police heard two of the men cry out that they had been shot and the officers believe that the wounded men were aided in escaping by their companions.

## AMERICAN WAR VESSEL

HAS COMPLETE CREW OF CHINESE EXCEPT THE ENGINEERING OFFICERS.

By Associated Press.  
Norfolk, Va., March 17.—The United States collier Halfax, Captain Hutchinson, has just arrived at the Norfolk navy yard from the Asiatic station, after a service in the Orient of two years. She has a complete Chinese crew with the exception of her engineering officers, and is the first vessel of the American navy ever to arrive at this navy yard with a crew of Mongolians.

## IRELAND IS PROSPEROUS

ADOPTION OF THE NEW POLICY  
GIVES STIMULUS TO EMERALD ISLE.

By Associated Press.  
New York, March 17.—Ireland has awakened to new life and hope of prosperity since the British government adopted the policy of buying in big estates and selling the land to the tenants, according to Admiral Lord Charles Beresford, who has arrived here on a vacation tour which he will extend to Mexico.

"There is no doubt that the new scheme for Ireland has proved a great boon for the country," said Lord Charles. "The people have money in the banks, and it all comes from the products of the country. Conditions are getting better all the time. Numerous estates have been sold and many people have been benefited. If they could get back their manufacturing future prosperity would be assured. I am president of a club whose main object is to encourage things that make for Ireland's welfare. It embraces all persons of all creeds, classes and political opinions, and is very much in earnest."

Lord Charles was asked what he thought of the frequently recurring controversy over the usefulness of battleships.

"The battleship must settle the ultimate affairs in war, no matter what we build," he replied. "Battleships are cheaper than war. They are a sort of insurance, if we have them sufficient and efficient, for peace. If we two nations, the Americans and the British, 'get together,' there is no doubt that we will control the peace of the world."

## "TU QUOQUE" SAYS LAMAR

CONGRESSMAN DEFENDS JUDGE.  
SAYS PROCEEDINGS AGAINST  
LIDDON SIMPLY RETALIATION.

In an interview in the Washington Post Congressman W. B. Lamar is quoted as saying:

"I noticed a dispatch in the Post the other day from Jacksonville, stating that a motion had been made at Marianna, the home of Hon. B. S. Liddon, to disbar him."

"Mr. Liddon was formerly chief justice of our state, and a jurist of eminence. Without knowing the facts, I place no credit in this proceeding. Judge Liddon is universally respected in Florida, has a good practice, and is a man of means. His retirement from the bench was by his voluntary resignation. My opinion is that the motion to disbar him is in line of retaliation, as about a year ago he instituted proceedings to disbar certain local attorneys. Tu quoque is a very familiar charge. As Judge Liddon is of an ardent and outspoken disposition, he has many sincere friends and not a few vigorous enemies. Some of the latter are undoubtedly behind this latest move."

## NEW STATE IS PLANNED

FORMED FROM PARTS OF TENNESSEE, VIRGINIA AND KENTUCKY.

By The Associated Press.  
Washington, March 17.—Colonel Campbell Slem, the only republican representative in congress from Virginia, says he will introduce a bill at the next session for the creation of a new state out of eastern Tennessee, southwestern Virginia and southeastern Kentucky.

He says the matter was discussed with the president, who gives his approval. Lack of comparison of the different sections of the three states from an agricultural standpoint is the reason for the proposed bill.

## CRUSADE ON DRUGS

MORPHINE, CHLORAL AND COCAINE MUST BE LABELED.

By Associated Press.  
New York, March 17.—A crusade against druggists who sell morphine, cocaine and chloral without labels has been begun by the state medical association in the hope of lessening the sale to drug fiends.

A detective in the employ of the association declares he had no difficulty in getting the drugs, the druggists selling him anything he desired without labeling the package in conformity with the law. Arrests are expected to begin at once.

**Parker's Luck.**  
New York, March 17.—A movement has been started by lawyers and friends of Judge Alton B. Parker to have him nominated for the supreme court bench this fall by democrats and endorsed by the republicans.

The salary attached to the position is greater than the one he gave up to become the democratic presidential nominee.

**Deadlock Not Broken.**  
Dover, Del., March 17.—The joint ballot for United States senator by the legislature to-day was without result.

### Off for Europe.

Washington, March 17.—Secretary and Mrs. Hay left Washington to-day for an absence of two months. They will sail to-morrow for Europe. Secretary Hay's ill health is stated as the cause of the prolonged trip.

### AN ODD WHIST HAND.

It Looks Like a Sure Winner, but Can Take Only Six Tricks.  
To any one familiar with whist the following hand is bound to look pretty good:

Hearts.—Ace, king, queen, jack, ten and nine.  
Diamonds.—Ace, king and queen.  
Spades.—Ace and king.  
Clubs.—King and jack.  
Hearts are trumps.

It looks like a good thing for eleven tricks sure and possibly for twelve. Should any whist player of experience get such a hand, however, he will be mighty apt to be as suspicious as the poker player who is dealt four kings. It is what is known as a "yarber-ough" in whist circles, and this is the denouement: The dealer holds the other seven hearts (trumps) and six small clubs to the ten. The dealer's partner holds the ace and queen of clubs and one small club. What his other ten cards are makes no difference.

CHARLES F. CAMPBELL

## Do You Know Good Healthy Sleep?

A healthy person sleeps a healthy sleep when tired. When you find that half the time you can't sleep in the same old healthy way then it is time to take care of your nerves.

Tired nerves won't let you sleep well and won't let you feel well. They are sick; they demand attention and they won't let you alone until they get it. No prescription has ever been formulated that produced such wonderful and rapid results in building up tired nerves as Paine's Celery Compound.

Sleeplessness is simply one of the many warnings that tired, sick nerves give. Feed them with Paine's Celery Compound and you will build them back to their real strength and find again that good, healthy sleep, which should come as natural to-day as it did in childhood.

You can take Paine's Celery Compound once a day, or once a month, or four times a day, according to your need; and when the medicine has done its work and your system is again running in the complete harmony of true health, you can cease taking the medicine, and you will not miss it. The reason is that Paine's Celery Compound is a real food for the nerve. It feeds and strengthens the entire nerve fabric.

The nerve sent out by healthy nerves is nature's stimulus, to keep all the organs of the body working well. It is by restoring the nerves and making new Nerve Force that Paine's Celery Compound works all its wonders.

Health, vigor, determination, courage—in fact, all that makes life worth living depends upon a healthy supply of nerve force.

Paine's Celery Compound makes new Nerve Force, it revives the old force and makes new. It not only does this, but by strengthening the nerves that control all the organs of the body, it cures the real cause of headaches, neuralgia, rheumatism, malaria, and the many diseases coming from a run down condition of the nerves.

Two days' treatment with Paine's Celery Compound will prove its marvelous power. It braces you up and you feel its marvelous effect almost instantly.

A case of extreme nervousness and lack of good healthy sleep is told by Charles F. Campbell.

"I would jump at my own shadow. I suffered so from extreme nervousness."

"Every spring my condition was worse than the previous year. I was completely fagged out from loss of sleep, and a nervous wreck. Something had to be done or I would surely have gone crazy."

"A member of my family had taken your Paine's Celery Compound, and just for luck I took a dose of it one day. The details of my own cure would take too much time to relate, but it is sufficient that I consider that dose brought luck indeed."

"I am better physically and mentally at this moment than I have been since boyhood."

"I beg to remain, yours respectfully, C. F. Campbell, 263 Washington St., Boston, March 18, 1904."

For 18 years Paine's Celery Compound has been the most universally used nerve vitalizer and tonic in the world. Several years ago the formula was sent to every registered physician in the United States. It is constantly prescribed by physicians.

Think for a moment what this means and remember that Paine's Celery Compound is the prescription of one of the most famous physicians America has ever known—Prof. E. E. Phelps, of Dartmouth University. Paine's Celery Compound is recommended and sold by all reputable druggists everywhere.
